	Temperature	room temperature	
	Time	overnight	
	Method	soaking bath	

Volume of ready-to-use solution		Quantity of	Quantity of deconex® concentrate required		
10 I 20 I 30 I 40 I		1%	1.5%	2%	
	10 I	100 ml	150 ml	200 ml	
	20	200 ml	300 ml	400 ml	
	30 I	300 ml	450 ml	600 ml	
	40 I	400 ml	600 ml	800 ml	

Pay attention to the correct dosage!

#### **Recommended procedure**

2-16 h

60 °C - 2 h

#### Soak the glassware

- Place your glassware in the soaking bath as soon as possible, do not allow residues to dry on the surface.
  Make sure the items are completely immersed.
- 2. If possible, cover the bath with a lid; follow the recommended soaking time.

### Rinse the glassware thoroughly

- 3. with drinking water
- 4. with demineralized water

## Dry the glassware

- 5. on a drying board or
- 6. in a drying oven

**Recommendation:** Replace the cleaning bath when it becomes highly contaminated, after the significantly extended cleaning time, or if pH < 9 is reached.
