

KimWipes™ by Kimberly-Clark®

The most widely used general purpose lab wiper in the world!

When it comes to laboratory wipes, only one brand comes to most lab technician's minds, Kimberly-Clark's® KimWipes™. KimWipes™ are a revolutionary, economic laboratory wipe that can be used on even the most delicate surfaces. Use KimWipes™ to clean counters or instruments, even microscope slides and lenses! The extra-low lint rating and the removal of chemical additives makes KimWipes™ the ideal choice for cleaning and wiping in laboratories and research facilities around the world.

The PUSH-UP BOX™ has been designed to give you perfect dispensing of KimWipes™. Remove the oval cutouts on the top and bottom of a KimWipes™ box and drop it into the PUSH-UP BOX. The PUSH-UP BOX prevents the top-most tissue from falling back into the KimWipes™ box, down to the very last one, each and every time. No wall installation necessary. Put a PUSH-UP BOX wherever it works best ergonomically. Made of durable high impact polystyrene.
