

KECK™ Clips for conical joints, nickel (Ni)

For applications with very high temperatures, the KECK™ spring steel clips represent an important addition to KECK™ clips for conical joints made of polyacetal (POM). Compared to commonly available wire clips they are easy to fit and do not alter their shape.

The product range compasses sizes NS 14 up to NS 29.

KECK™ Clips for conical joints, nickel (Ni), KCM

Cat. No.	For nominal size	Pack Quantity
28 633 730	NS 14	100
28 633 740	NS 19	100
28 633 750	NS 24	100
28 633 760	NS 29	100

KECK™ Clips are also available for spherical joint connections.

Good glass makers also ensure safe connections!
